

# PP Metalized Tape

# MTTAPE

## Dimensions

Code	Width mm	Length m
MTTAPE	50	50
MTTAPE	75	50

## Description

Single sided self adhesive tape with aluminium dust. Used to steam tighten AC or central heating systems. Due to its good adhesive properties and low side penetration by water and solvents, it is also widely used in other branches.

### Material

Polypropylene (PP), metalized.

### Colour

Shiny silver.

### Temperature range

-20–80 °C.

### Total thickness

0,05 mm.
